The Girl and the Tramp

Comet Theatre, Friday, May 10

To see Fred Byers is to laugh, and his new vehicle, "The Girl and the Tramp," as produced last night at the Grand Theatre gives him plenty of opportunity to create that mirthful sensation without drawing too much on his own personality. The audience which filled the theatre enjoyed the entire evening of fun, and when the curtain finally descended on the finish, everyone seemed glad to have been there to witness Mr. Byers' undoubted success in the role of Happy Jack, the tramp, who, with the assistance of the adopted girl Flo, Randall, rescues the home and happiness from the clutches of the scoundrel, Philip Redman. Special mention might be made of each member of the cast brought together to portray the different characters of this production. From time Happy Jack makes his appearance in the yard of the Merton home singing, "Any Old Place I Hang My Hat is Home, Sweet Home to Me," to his declaration in the last act, that he intends to be more than a casual acquaintance to Flo, Randall and to the Merton family, there is a continual flow of bright speeches and amusing situations, and there was not a dull moment during the whole evening's performance.—Toronto Globe, Jan 17, 1912.

Lacombe

Lacombe to Instal Waterworks

The fact that in the very near future this town will be a divisional point of great importance on the C. N. R. Branch and Strathcona-Calgary lines, with a rapid increase in population sure to follow, has put the citizens of Lacombe seriously thinking of water works and sewers. Lacombe can, at a minimum expense, install a waterworks system. An unlimited supply of good water can be secured from deep wells at any point in the town at a depth of about 165 feet. Another source of supply is Jackfish lake, a beautiful spring lake, situated three miles from the town, an inexhaustible supply of good water can also be secured from Gull Lake, eight miles away. The Gull Lake scheme is probably the best of the three, as the water could be brought into town by gravity. The Jackfish Lake water would require to be forced into town. Many citizens favor the sinking of deep wells and the construction of a large storage tank. This scheme is also a very good one and much cheaper than either of the others. The town would be put to very little expense for pumping the water, as electric power from the town's plant would be used. Lacombe must have a waterworks system, and this matter is now being seriously considered by the town officials. As soon as a feasible plan can be decided upon, it will be placed before the citizens.

Another Industry for Lacombe

Mr. Cunningham, manager of the company recently formed for the purpose of operating a cement pipe, tile and block factory in Lacombe, was in town on Monday. He interviewed the mayor and councillors regarding the securing of electric power with which to operate the plant. The company have secured a half section of land abutting the town's land at the power plant on the Blindman. This land is underlain with an almost unlimited amount of splendid sand and gravel, of the very best quality. Mr. Cunningham's company will be one of the largest in Alberta, and will employ upwards of fifty men. The question of supplying power asked for is being considered by the council, and it is thought probable that a satisfactory contract can be made. As the providing of this power will necessitate running the water plant all day, parties in Lacombe using power will also be able to secure same.

Lacombe Building Mile of Walk

On Monday morning the construction of cement sidewalks proposed for this season was commenced. The work is being done by the town, with H. Atkinson as superintendent. A mile of walk will be laid this year if the weather conditions are favorable. The work started on Monday morning at the north end of Day St., and will be pushed ahead rapidly. All on St. and Railway Ave. will next be undertaken. The town is in good shape for sidewalk construction this year, as all the gravel and sand required was hauled into town during the winter, and a great saving made by so doing. With settled weather the entire work should be completed by the end of July. A grader has been secured to work on the streets, and every roadway in town will be rounded up. Crossings are being put in wherever needed—and they are real crossings. The drains have all been opened, culverts put in, and in a short time Lacombe will be the "City Beautiful."

Judge Mabey Dead

Toronto, May 6.—Judge Mabey, having taken a bad turn at 1:30 o'clock, his heart strength having collapsed, passed away at 3:15 this afternoon. He was conscious to the last, and his son and daughter were at his bedside when he died. Hon. James Pitt Mabey, K.C., had been chief of the board of the railway commissioners for Canada since March 28, 1908, when he succeeded the late commissioner Killam. He was born in Port Rowan, Ont., on Nov. 5, 1859, and was the son of Simon Pitt Mabey and Fannie Leaton. He married Miss Mary Thorold, of Port Rowan. He leaves one son and one daughter. His earlier education was received in his native town and in high school at that place. Later he attended Toronto University. After graduating in law he practised his profession at Listowel for a number of years, and later went to Stratford. He then went to Toronto. He was appointed a judge of the high court of justice in Ontario, king's bench division, on November 21, 1905. Then in March, 1908, he received his appointment of chief of the railway commission. He was considered one of the ablest men in Canada.

OF LOCAL INTEREST

Look up Bailey's reward. See ad. The Women's Christian Temperance Union will meet at the home of Mrs. Bruce on Friday afternoon at 3 o'clock. Arrangements have been made to hold the last assembly dance for the season, in the opera house on Thursday evening (tomorrow). Lynch's orchestra has been secured, and an attempt will be made to make

There will be a meeting of all interested in the formation of a Gun Club in the Town Hall on Friday evening next at 8. All gun men are invited to attend. The baseball club is booming; new players are dropping in daily. There is a practice every night or two, and the boys are determined that Lacombe will clean up the district this season. St. Cyril's Women's Guild will hold a ten-cent tea and sale of baking at the rectory on Saturday afternoon, May 18. All ladies belonging to the church are asked to please help in the baking, and send same to the rectory on that date. Where is Percival Park in Lacombe? Ask H. F. Kenny & Co., Day Block.

The Piano Contest.

There is considerable change in the standing of the contestants in the great piano contest this week. Miss Ethel Rimbley is at the head of the list, and Mrs. Slater, who was well in the lead last week drops back to seventh place. Less than 1080 votes would make a big change in the list as it now stands. The fight is becoming keen. Get your friends busy now. A subscription to the Western Globe counts 1000 votes and for every cent's worth you purchase at the New Drug Store on Nanton St. you get one vote. Get busy.

Short Talks on Vital Topics

THIRD EDITION

Percival Park

Where is it? That is the question of the hour. Some are wondering where it is; others are looking with longing eyes upon it, hoping that some day they may be able to own a home in such an ideal location. Well, for the benefit of the curious, we will say that "Percival Park" is the new name for that beautiful piece of property at the south-west corner of Barnett Ave. and the Edmonton Trail, Lacombe.

The property will be surveyed and placed on the market by us almost immediately. If you, Mr. Reader, want a good place for a home or an inside lot that will net you a good profit in a short time, you will buy in Percival Park as soon as you get the chance.

Take a walk over this property at your earliest opportunity and see what a beautiful place it is.

Fair Warning

If you are interested call in and see. We can show you some snaps that will make your mouth water. We give you fair warning that this town is on the verge of great development. We venture to predict that within a very short time Lacombe town property will be booming. If you do not call and see some of the snaps we offer now and if you do not buy quickly you will be glad to pay double the price one of these times. Now, remember Lacombe is a winner.

NOW OPEN FOR BUSINESS

Our office in the Day Block is now a scene of activity.

Call and see us.

We do all kinds of Real Estate and Insurance business.

Tenders Wanted

Sealed tenders will be received by us up to June 1st for the purchase of the old Exhibition Building on Percival Park, at the corner of Barnett Ave., and the Edmonton Trail. The building is a frame structure, 30 x 50 feet, and has a good floor. Purchaser must have the building removed from the property by July 1st as the space is needed for residences. How much do you offer? The highest or any tender not necessarily accepted.

PRIZE ESSAY COMPETITION

Did you read the announcement in this space last week? If you didn't, get a paper and hunt it up.

How are you getting along with the essay, boys and girls? Take your time and do it well, for we will publish the best one, and perhaps more than one. But be sure to get it in to us before June 1st.

"Why I Like to Live in Lacombe." The subject is such a happy choice that there surely ought to be some good essays.

Now, as to the prizes. Our idea is to encourage the boys and girls on literary lines, and also to own part of the world. So the 1st prize will be a certificate for twenty-five dollars that may be used as cash in the purchase of any property owned by us or listed with us. The second prize will be a similar certificate for fifteen dollars. Holders of these certificates will be allowed to sell them.

EDWARD J. QUINN, Manager

After another week of rain the weather is bright, and promises to give the farmers a chance to finish seeding.

Will Lohman, now of Lethbridge, arrived on Sunday for a week's visit among friends here.

G. Harrold took a bunch of thirty-five fine large steers through today—the kind that look like \$100.00 each.

Ira Shilling strayed out this way—just renewing acquaintances—on Sunday, and of course to attend church.

We forgot to mention in last week's items the successful sale of W. A. and C. E. Withers at Medicine Valley P.O. on the 24 of April. C. E. Dameron did the usual thing by pleasing everybody, especially the owners.

Bentley business is thinking of taking a page in the Western Globe for advertising and news. It would be a good idea, and one that we hope will be put through.

Chas. Girard, better known as "Gopher Bill," went into the hog business last week and is ready to pick up the real snaps offered. Jas. McPherson entered into the first deal, but withdrew from the partnership when he was not consulted in regard to the deal, and hereby notifies those to whom it may concern that the foregoing, previously existing partnership heretofore mentioned is on this day and date dissolved.

The dance at the hall on Saturday night was well attended and a very enjoyable time was spent.

The Bentley Homestead of the Brotherhood of American Yeomen will give a dance at the McPherson Hall on Friday night, May 17th, and are making extensive arrangements for same. Good music will be obtained and a top supper provided. See bills.

Remember the big W. B. McPherson sale at Bentley on Saturday afternoon. Stock, implements, tools and a lot of household goods will be sold. See bills.

Mr. O. W. Johnson has purchased a farm south-east of Lacombe and is removing to same.

Mr. Mohring's bridge crew moved from here to Wessville on Saturday, where they are

putting in a breakwater for Wallace & Sheppard.

The Hunt and McPherson road crew moved on Saturday to two miles south of Wessville where they have about ten days work.

Messrs. C. A. Campbell and son were greeted by a good crowd last evening at the Methodist church.

Standing Grain Field Competition.

One of the best forms of work to be undertaken by an agricultural society is the Standing Grain Competition. There is no method yet discovered, by which a judge, no matter how expert he may be, is able to tell from the appearance of grain in a sack as to the variety. Also with grain in the sack there are so many ways of cleaning that weed seeds do not appear. In a large field which has been seeded the grain is just as it appears, and no amount of preparation will make it appear any different. If the variety is pure it can be easily seen, and if impure the different varieties can be easily detected. The weeds which may have been sown with the grain can also be detected.

In this way an excellent study of grain can be carried on, and the results obtained from careful observation are too apparent to need further comment.

In judging the points most considered are purity of variety and freedom from noxious weeds. It will be recalled from last year how very badly mixed was the grain growing in the fields. Scarce a field but what several different varieties appeared, and the resultant crops must have shown the mixing many times over. One of the main objects of the contest is to eliminate as far as possible the mixing of seeds, and to place the premium on the field which shows the greatest care in the preparation of the seed previous to seeding.

Now while the country is young is the time to start in right, and if possible to prevent the spread and development of noxious weeds. By placing the awards on fields showing freedom from noxious weeds much good will result. Other points which will be considered in judging will be the size of the field and also the suitability of variety to local conditions.

The judges of the competition will be furnished by the department of Agriculture, and will be men well qualified to com-

plete the important work assigned to them. The judging will be done in August, or such times as the grain is in such condition as to enable the judges to do this difficult work.

The prizes will be large. In each class of wheat, barley and oats, it is hoped there will be sufficient entries to make a class. It is the intention of the society to offer prizes aggregating \$100 in each of the classes, although much will depend on the number of entries secured in each of these classes.

The entrance fee will be \$2.00 for each class, which amount is fixed by the Provincial Department. This will make a substantial fund, which with contributions offered by local business men, will increase the premiums to be something really valuable.

A large entry is earnestly solicited, and it is hoped that many will enter. Every assurance is given that the greatest care and fairness will prevail throughout the contest.

Another Railway in Lacombe District

The residents of the country west of Lacombe will hear with pleasure that at last their wants along the line of railway accommodation are to be filled in a short time. The C. N. R. start this week on a line of railway from Strathcona to Pincher Creek.

This line will run west of Pigeon Lake, and comes within six miles of Timbey, thence to Eckville and south-west to Pincher Creek. This line will open up one of the wealthiest portions of the Lacombe district, and is a badly needed line. It will tap all that splendid farming country in the west end of Lacombe district, and will mean millions of dollars to the farmers who for the past twenty years have striven to make a living thirty-five miles from a railway line.

Anticipating the possibility of war breaking out in Europe the Swiss National Bank has printed \$6,000,000 worth of twenty franc war notes. This action was taken in accordance with a Federal law which permits such an emergency circulation in extraordinary circumstances, and upon the report of one of the bank's directors, who recently made a careful investigation of the relations existing among the great powers. The notes are now stored in the vaults of the bank's headquarters at Zurich and will not be issued unless war is actually declared. The lowest bank note at present is fifty francs.

The British legation in Peking has received information that Chinese are being driven from Tibet into India by thousands and that those remaining are being massacred by the Tibetans. Authorities believe there is a connection between the independence movement in outer Mongolia and that in

Events Throughout The World

The Belgian Syndicate's loan will be cancelled, according to a decision practically reached by Premier Tang Shao-yi, of China. He is said to have expressed acquiescence to the demands of the Ministers of the United States, Great Britain, Germany and France.

The uprising against the French in Fex has assumed formidable dimensions and the Minister of War has authorized Gen. Mobier, in command of the French troops in the disturbed city, to proclaim a state of siege. The city will be patrolled by companies of French troops in an effort to preserve order. Practically the entire Jewish quarter of Fex has been sacked by rebels, who have put to death hundreds of foreigners.

Gen. Monnier was given specific orders to make efforts to identify the leaders of the revolt, and put them to death. The feeling against foreigners is spreading all the way from Fex to Melilla. Many beacon fires can be seen at night, they being used to summon the Kabyl chiefs to Taza. The tribesmen are threatening a holy war. In connection with the growing agitation, the newspapers are urging Spain and France to come to an agreement as quickly as possible so they can co-operate in solving the serious situation.

Queen Wilhelmina of Holland, with the Prince Consort, will visit Paris in June.

Bonnot, the notorious French bandit and reputed leader of the band that has been going around in automobiles killing and robbing in various places, and Dubois, one of his accomplices, were trapped in a garage at Choisy-le-Roi by Paris police on Sunday, and both met death after a five hours' siege. Bonnot was known as the "demon chasseur" and Dubois was an anarchist.

The band of which they were members has terrorized Paris and its environs for months. In the battle in which dynamite was employed to make a breach in the wall of the garage, two policemen were wounded. Bonnot did not fighting to the last, but Dubois poisoned himself after the police and soldiers had made a breach in the wall. Relentless warfare on the anarchists in France is to be one result of the operations of the Bonnot band of out-moded brigands. The police department is amazed at the discovery, during recent investigations, of the large number of anarchists who have taken refuge in Paris from all the countries of Europe. These will now be arrested and driven from France as enemies of society.

Tibet. Both countries are under the spiritual authority of the Buddhist religion. The Mongols make frequent pilgrimages to Tibet to worship the Dalai Lama and Tashi Lama, who are regarded as reincarnations of Buddha.

Striking textile workers threw bombs into the ranks of soldiers at Villa Nova de Gaia, a suburb of Oporto, on April 24. The troops replied with volleys of shots. Many soldiers and civilians were killed.

Justin McCarthy, the historian and novelist, died on April 24 at Folkestone. He was buried in Hampstead Cemetery on Saturday, among those being present at the funeral being J. Redmond, T. P. O'Connor, Jno. Dillon, and practically all the Nationalist members of Parliament.

A New Jeweler

A deal was put through this week by which John Bulger, a well known Vancouver jeweler becomes the owner of G. W. Hotson's jewelry store on Norton St. Mr. Bulger comes to Lacombe with the very highest recommendations as a jeweler and watchmaker, and guarantees all work submitted to him. He will as soon as possible put in an up-to-date stock of fine watches, jewelry, cut glass and silverware. These goods are now under order and will be sent forward at once. Mr. Hotson wishes us to say that he knows his successor to be a first class watchmaker and solicits for him a share of the business of this town and district.
